

Victaulic Promotes Lawrence W. Thau, Jr. to Executive Vice President and Chief Technical Officer

EASTON, PA (February 6, 2008) – Victaulic, the world's leading producer of mechanical pipe joining systems, today announced the promotion of Larry Thau to Executive Vice President and Chief Technical Officer. In this newly created position, Thau is responsible for global product research and development activities as well as participating in global strategic planning. Among his other responsibilities will be the company's Quality organization, Engineering Services group and laboratory and design departments.

Thau has served in a number of key capacities related to the development of new products during his 35-year career at Victaulic. Most recently, he held the position of Vice President – Engineering. Thau is the inventor or co-inventor of more than 20 patents assigned to Victaulic, with additional patents pending.

Prior to joining Victaulic in 1973, Thau was a Test Engineer for Raybestos, Inc., a manufacturer of vehicular braking systems.

Thau participates in several industry organizations including the American Society of Mechanical Engineers (ASME), the American Society of Testing & Materials (ASTM), the National Association of Corrosion Engineering (NACE), the National Fire Protection Association (NFPA), the American Society of Safety Engineers, the American Petroleum Institute, and the National Fire Safety Association (NFSA). He is also active in his community serving as a board member for the Boy Scouts of America - Hunterdon Arrowhead District and as President of the DeerPath Park Civic Association.

Thau holds a B.S. in Mechanical Engineering from the New Jersey Institute of Technology. He resides in Flemington, NJ.
