AGS develops a complete line of high quality gas safety systems with international recognition. Their range of products are UL certified and designed to meet all relevant NFPA and ICC codes.

Since 1910, **Ames Fire & Waterworks** has been a leader in the manufacture of valves and fittings. Ames products serve the fire protection, irrigation and waterworks markets and have a reputation of excellence in the industry.

aquatherm

Aquatherm's polypropylene piping is the perfect material for pressurized mechanical and plumbing systems of all sizes (1/2"-24"). It's faster to install, corrosion-free, and lasts for decades.

Backflow Direct was established in 2012 to design and manufacture the revolutionary backflow prevention line, Deringer, which is the smallest, lightest, most economical, best performing and only all stainless steel backflow prevention valve.

A WATTS Brand

BLÜCHER offers solutions for food and beverage, hospitality, medical and industrial applications. Products include stainless steel drainage systems, pipe, fittings, floor drains, kitchen channels and trench drains.

CADDY has a full line of beam clamps, hangers, straps, strut support systems, rooftop supports and seismic supports for mechanical and HVAC applications, plus solutions for fire protection and plumbing applications.

Ask for it by name®

dahl is best known for their industry-leading quality and selection of 1/4-turn mini-ball™ valves. dahl valves are proudly sourced and assembled in North America, and are made to stand the test of time.

A WATTS Brand

Dormont is the leading inventor and manufacturer of safe, high-quality stainless steel gas connectors. Products include stainless steel gas connectors, accessories and commercial plumbing products.

A WATTS Brand

FEBCO's experienced engineers continue to combine theory with practice to design and manufacture top quality, high performance backflow prevention assemblies and related flow control products.

Grundfos supplies a broad range of pump systems for raw water intake, drinking water treatment/distribution, flood control, and wastewater treatment.

Intellihot offers high-tech, ultra-efficient tankless water heating solutions for commercial and industrial applications. As robust as diesel engines, Intellihot systems are built for cutting-edge operations.

Javelin provides urinal, tub and sink, bowl cleaner and drain deodorizer treatments. No smoke, heat, or smell when using Javelin drain solutions.

A WATTS Brand

Leak Defense provides leak protection equipment, including point-of-leak controls and complete integrable systems for commercial and residential properties.

MCM stocks 50 lb bags of limestone rocks for dilution/neutralization tanks to aid in chemical waste disposal.

A WATTS Brand

Orion's corrosion-resistant chemical piping systems have been proven in thousands of educational, medical, industrial, and research installations across North America and throughout the world.

A WATTS Brand

Powers is an innovator in the area of temperature control, serving the commercial and industrial markets. Products include point-of-use mixing valves, master mixing valves, digital mixing valves and industrial control valves.

RectorSeal's primary products include thread sealants, firestopping sealants, plastic pipe cements, anti-seize compounds, fluxes, lubricants, chemical cleaners, duct sealants, leak locators, and other specialized products.

TIGERFLOW®

TIGERFLOW is a market-leading manufacturer of pre-engineered or custom-engineered packaged pumping systems that are highly efficient, durable, trouble free and compliant with recent regulatory changes.

Watts designs, manufactures, and sells an extensive line of flow control products such as backflow preventers, ball valves, tempering valves, relief valves, and expansion tanks.

Watts Drainage offers engineered drainage products ranging from specification floor drains, cleanouts, carriers, hydrants, interceptors, trench drains and specialty products for commercial structures.
