Since 1910, Ames Fire & Waterworks has been a leader in the manufacture of valves and fittings. Ames products serve the fire protection, irrigation and waterworks markets and have a reputation of excellence in the industry.
www.amesfirewater.com

Aquatherm's polypropylene piping is the perfect material for pressurized mechanical and plumbing systems of all sizes (1/2"-24"). It's faster to install, corrosion-free, and lasts for decades.
www.aquatherm.com

Backflow Direct was established in 2012 to design and manufacture the revolutionary backflow prevention product line, Deringer, which is the smallest, lightest, most economical, best performing and only all stainless steel backflow prevention valve.
www.backflowdirect.com

BLÜCHER offers drainage solutions for food and beverage, hospitality, medical and industrial applications. Products include stainless steel drainage systems, pipe, fittings, floor drains, kitchen channels and trench drains.
www.blucher.com

Caddy has a full line of beam clamps, hangers, straps, strut support systems, rooftop supports and seismic supports for mechanical and HVAC applications, plus solutions for fire protection and plumbing applications.
www.erico.com/caddy.asp

Dormont is the leading inventor and manufacturer of safe, high-quality stainless steel gas connectors. Products include stainless steel gas connectors, accessories and commercial plumbing products.
www.dormont.com

Febco designs and manufactures top quality, high-performance backflow prevention assemblies and related flow control products for irrigation and potable water applications.
www.febcoonline.com

Grundfos supplies a broad range of pump systems for raw water intake; drinking water treatment and distribution; flood control and wastewater treatment.
www.grundfos.com

Javelin provides urinal, tub and sink, bowl cleaner and drain deodorizer treatments. No smoke, heat, or smell when using Javelin drain solutions.
www.javelindrainproducts.com

Limestone is commonly used for acid neutralization in wastewater systems via chemical reaction inside neutralization/dilution tanks.
Purchase 50 lb bags of limestone rocks directly from MCM. www.mcmsl.com

The name McElroy is recognized worldwide as the most reliable, efficient, rugged and technically advanced pipe fusion equipment in the world.
www.mcelroy.com

Watts' corrosion-resistant chemical piping systems have been proven in thousands of educational, medical, industrial, and research installations across North America and throughout the world.
www.watts.com

Powers has been an innovator in the area of temperature control serving the commercial and industrial temperature control markets. Products include point-of-use mixing valves, master mixing valves, digital mixing valves and industrial control valves.
www.powerscontrols.com

RectorSeal's primary products include thread sealants, firestopping sealants, plastic pipe cements, anti-seize compounds, fluxes, lubricants, chemical cleaners, duct sealants, leak locators, and other specialized products.
www.rectorseal.com

Watts designs, manufactures and sells an extensive line of flow control products such as backflow preventers, ball valves, tempering valves, relief valves, and expansion tanks.
www.watts.com

Watts Drainage offers engineered drainage products ranging from specification floor drains, cleanouts, carriers, hydrants, interceptors, trench drain and specialty products for commercial structures.
www.watts.com

Watts offers products such as elevator trench drains and frame-anchored Dead Level® systems that tie rebar to the structural frame rather than the channels, combining structural stability with ease of installation.
